**Categories:** Matteo

Tom,  
Attached (Excel File) is a summary table and that is all what I have.

Andy – This part of the Solvay PFAS investigation effort including the sampling from adjacent properties. The Mateo Superfund site is the site located on 1692 Crown Point Road. Please see if you have any reports/more information in your files and provide to Tom. Another option is to also see if Erica (from NJEP) has more reports after we exhaust our files. Thanks

Nidal,

I received the attached letter from Larry Granite regarding PFAS sampling in the West Deptford, NJ area and more specifically the Matteo Superfund Site. OU1 of Matteo has been transferred from Larry to me and NJDEP has requested

to meet with me regarding PFAS in groundwater at Matteo. The attached letter lists you as having additional data reports. Would you be able to share those? Thanks.

-Tom

**Subject:** PFAS at Matteo & Sons Superfund Site

Hi Larry – please see the attached letter for a summary of the PFAS concentrations measured in a shallow well at the Matteo & Sons property in West Deptford (Thorofare), NJ. Thank you for making the time to look into this matter. I'd be happy to answer any questions or discuss potential next steps with you.

Regards,  
Phil
